

Weekly Update

Group Name and Number: name: SixSeven number: 7

TA: _____

We met with our TA for ____ mins, in person/on Zoom this week.

Item

1.	What our group has done since our last meeting: ● Formed our team and confirmed all team members. ● Drafted and finalized our Team Agreement. ● Read and understood the problem statement together. ● Chose our team name. ● Had an initial discussion about the overall project structure, including possible parts such as mobile application, web interface, and backend development. ● we carefully reviewed the instructor's PPT and briefly discussed future task division, including research, discussion, PRD writing, development, testing, and documentation, with each member sharing their preferred role.
2.	Contributions of each team member since our last meeting (show overall % contribution): ● Wang Jundi: Organized group communication, coordinated discussions, and drafted this weekly update. ● Yang Haoze: Proposed the overall project framework, including mobile, web, backend, AI-related ideas, and provided suggestions for task division. ● Liu Honghao: Participated in group discussions, exchanged views on project direction, and helped refine the team workflow. ● Li Jinhao: Joined team discussions, provided opinions on potential project functions (app, web, AI), and supported the preliminary plan. ● Huang Tian: Helped finalize the team agreement, promoted the no-leader collaborative mode, and participated in discussions about project structure. ● Ma Qingchuan: Actively joined group discussions, gave feedback on possible development directions, and supported the overall preliminary plan. 16.7% for each(100% in total)
3.	We have the following questions and/or issues that we would like to discuss: ● We want to confirm the official project topic and detailed requirements from the instructor. ● We plan to further discuss formal task allocation after the project topic is confirmed.
4.	What we plan to do before the next meeting: ● Wait for the official project topic and fully understand all requirements. ● Assign specific roles, including research, PRD writing, front- end (mobile & web), backend, testing, and documentation. ● Start preliminary background research related to the project direction. ● Finalize a clear and detailed development plan.
